5b Simulation Operations — Mentorship, Payroll & Tax Billing

Apprentice Mentorship & Delivery

- **Supervised Resource Pairing:** Every service request pairs a Senior Associate with a university Apprentice, tracked via normalized `assignmentsupervisor` records.
- **139+ Threaded Messages:** Direct collaboration messages (`requestmessage`) linking clients, associates, apprentices, and managers.
- **Formal Ticket Sign-Offs:** Tickets conclude with stakeholder completion notes and 5-star ratings (`servicerequestclosure`).

Financial Cycles & Tax Invoicing

- **12 Payroll Runs (Sep 2025 – Aug 2026):** 84 payslips covering staff salaries, apprentice stipends/bonuses, and associate deliverable milestones.
- **Itemized Corporate Invoices:** Base retainer, associate hours, apprentice hours, and excess capacity hours (`clientinvoiceitem`).
- **ZIMRA 15% VAT & Electronic Receipts:** 44 completed bank settlements via Stanbic, CABS, CBZ, and EcoBank. Month 12 is active as *Payment Due*.

6 Security & Session Integrity Architecture

HMAC-SHA256 Signatures

Cryptographically binds session payloads to user IP and User-Agent, preventing cookie tampering and replay attacks.

Idle Session Soft-Lock

Automatic protection after 30 minutes of inactivity; securely preserves UI state while requiring password verification.

Granular RBAC Policies

Strict database-level segregation separating internal staff tiers, corporate clients, and public talent applicants.

7 Regulatory Standards & Architecture Stack

Zimbabwe Regulatory Alignment

- **ZIMRA VAT Compliance:** Standard 15% VAT on all corporate invoices with Business Partner (BP) validation.
- **NSSA Statutory P4:** Monthly automated export for National Social Security Authority pension filings.
- **CID Police Vetting:** Criminal vetting and clearance certificate validation for all placed talent.

Core Technology Stack

- **Application:** PHP 8.2+ custom MVC architecture, PSR-4 autoloading, and Active-Record ORM.
- **Database:** Relational ACID SQLite 3 with normalized schema and auto-migrating tables.
- **Hosting:** Enterprise Linux / Apache Web Server with TLS/HTTPS cryptographic enforcement.
