

Tsigiro Apprentice & Associate Roster — Application Question Bank

Prepared for: Trainit Technologies (Pvt) Ltd t/a Tsigiro **Purpose:** Specification for the roster web app intake form — screening, interviewing, and admission to the Apprentice / Associate roster, with onward push into Odoo. **Date:** August 2026

0. Three design decisions before you build

0.1 Split the form into three stages — do not ask everything up front

The Odoo screenshots show the `hr.employee` **private tab**. Those are *employee* fields, not *applicant* fields. Asking a first-time applicant for a spouse's birthdate, passport number and bank account will (a) kill your completion rate, (b) leave you holding sensitive personal data on people you will never engage, and (c) put you on the wrong side of the **Cyber and Data Protection Act [Chapter 12:07]** and POTRAZ data-controller obligations. Collect the minimum needed to decide, then escalate.

Stage	Trigger	What you collect
Stage 1 — Apply	Open to anyone	Identity basics, education, skills, experience, availability, judgement answers, consent
Stage 2 — Verify	After shortlisting	Referee checks, qualification verification, work samples, interview record
Stage 3 — Onboard	On admission to roster / first engagement	Full private address, ID & passport numbers, family & emergency contact, banking, documents, signed contracts

Sections 1–10 below are Stage 1. Section 11 is Stage 3.

0.2 Do not write applicants into `hr.employee`

Push Stage 1 submissions into `hr.applicant` (Recruitment module) with two job positions — "Apprentice Roster" and "Associate Roster" — and custom stages: *Applied* → *Screened* → *Interviewed* → *On Roster* → *Deployed* → *Dormant* → *Withdrawn*. Convert to `hr.employee` only when someone is actually engaged. This keeps your employee headcount clean, keeps HR-Officer-restricted private fields empty until they're justified, and gives you the recruitment pipeline reporting for free.

If the roster needs attributes Recruitment can't hold (rate cards, capacity, deployment history, client conflicts), add a small custom model `tsigiro.roster.member` linked to the applicant/employee record.

0.3 One form, two branches

Question 1.1 sets the branch. Roughly 60% of the questions are shared; the rest are conditional. Apprentice branch is education- and attachment-heavy. Associate branch is experience-, rate- and compliance-heavy.

STAGE 1 — APPLICATION FORM

Section 1. Application route

1.1 I am applying as: ☐ required

Apprentice — I am a student on attachment, a recent graduate, or early-career, and I want to be placed with client organisations under Tsigiro supervision

Associate — I am an experienced professional and I want to provide specialist oversight, review and technical expertise on Tsigiro engagements

Not sure — help me decide → show a short comparison panel, then force a choice

Explainer text to show: Apprentices carry the day-to-day work at client organisations, either **Shared** (up to 5 clients at 20% level of effort each) or **Dedicated** (one client, 100% level of effort). Associates sit above both tiers, providing the expert layer — quality assurance, technical sign-off, and escalation support.

1.2 How did you hear about Tsigiro? — University career office / Lecturer or attachment coordinator / LinkedIn / Facebook / WhatsApp / Referred by someone / Tsigiro website / Client organisation / Other → Odoo:

1.3 If referred, by whom?

1.4 Have you applied to or worked with Tsigiro / Trainit Technologies before? → if yes, when and in what capacity

Section 2. Identity and contact

2.1 Legal name exactly as it appears on your national ID — *required* → Odoo: /

2.2 Preferred name (what we should call you)

2.3 Email address → Odoo:

2.4 Mobile number → Odoo:

2.5 WhatsApp number if different

2.6 Date of birth → Odoo: *Justification to show the applicant: age eligibility and, if engaged, payroll and statutory registration.*

2.7 Sex → Odoo: *Keep optional at application; required at onboarding for NSSA/payroll.*

2.8 Town/city of residence → Odoo:

2.9 Suburb / area (*full street address deferred to Stage 3*)

2.10 Province — Harare / Bulawayo / Manicaland / Mash Central / Mash East / Mash West / Masvingo / Mat North / Mat South / Midlands

2.11 Country of residence → Odoo:

2.12 Nationality → Odoo:

2.13 Do you have the legal right to work in Zimbabwe? ☐

Yes — Zimbabwean citizen

Yes — permanent resident

Yes — I hold a valid work permit

No / not yet

2.14 (conditional) Work permit number and expiry date → Odoo:

2.15 Do you hold a valid Zimbabwean national ID? (number collected at Stage 3)

2.16 Do you hold a valid passport? + expiry (number at Stage 3; relevant for regional assignments)

2.17 Do you have a disability or health condition for which you would like us to make adjustments — during recruitment, or in how work is set up? + → Odoo: (boolean) Frame this as an adjustment question, not a screening question, and say explicitly that it does not affect the outcome of the application.

Section 3. Education

3A. All applicants

3.1 Highest qualification **completed**
Ordinary Level / Advanced Level / National Certificate / National Diploma / Higher National Diploma / Bachelor's degree / Postgraduate Diploma / Master's degree / Doctorate / Professional qualification only → Odoo: — note the stock selection is Graduate/Bachelor/Master/Doctor/Other; **add custom selection values** for Diploma, HND, National Certificate, A-Level, which are the common Zim cases

3.2 Field of study → Odoo:

3.3 Institution → Odoo:

3.4 Year completed

3.5 Class / grade obtained
Credit / N/A]

3.6 Upload certificate(s)

3B. Apprentice branch only

3.7 Current status
Currently enrolled, going on Work-Related Learning / Industrial Attachment
Currently enrolled, applying for part-time/vacation work
Awaiting graduation (studies complete, not yet capped)
Graduated within the last 24 months
Graduated more than 24 months ago

3.8 University / college University of Zimbabwe · Midlands State University · NUST · Chinhoyi University of Technology · Harare Institute of Technology · Great Zimbabwe University · Bindura University of Science Education · Lupane State University · Zimbabwe Open University · Women's University in Africa · Africa University · Catholic University of Zimbabwe · Manicaland State University of Applied Sciences · Marondera University of Agricultural Sciences · Gwanda State University · Zimbabwe Ezekiel Guti University · Reformed Church University · Solusi University · Harare Polytechnic · Bulawayo Polytechnic · Other polytechnic · Other

3.9 Programme / degree title

3.10 Level of study

3.11 Student registration number

3.12 Expected completion date

3.13 Is this application for **Work-Related Learning / Industrial Attachment**?

If YES:

- 3.14** Attachment start date and end date
- 3.15** Duration required by your institution
- 3.16** Does your institution require a signed **acceptance/placement letter** before you start?
- 3.17** Does your institution require a signed **attachment agreement or MOU** with the host organisation?
 — *upload the template if you have it*
- 3.18** Does your institution require a **logbook** and periodic supervisor assessment visits?
- 3.19** Does your institution require the host to provide **insurance cover** for you?
- 3.20** Does your institution set a **minimum stipend**? + amount
- 3.21** Attachment / WRL coordinator: name , department/faculty , email , phone
- 3.22** Upload proof of registration / attachment letter
- 3.23** Upload academic transcript or latest results
- 3.24** Current cumulative average or class-to-date

Section 4. Service function and skills

4.1 Which Tsigiro service function(s) can you support?

Finance & Accounting
 Human Resources & Payroll
 Grants & Donor Compliance
 Monitoring, Evaluation, Accountability & Learning (MEAL)
 Procurement & Logistics
 Internal Audit & Risk
 ICT / Systems Administration
 Data, Reporting & Business Intelligence
 Software Development
 Communications & Digital
 Administration & Executive Support
 Programme / Project Support

4.2 Your **primary** function

4.3 For your primary function, rate yourself on this scale

Level	Meaning
1 Aware	I understand the concepts but have not done the work
2 Assisted	I have done it with close supervision or as part of a team
3 Independent	I can do it start to finish without supervision
4 Expert	I handle complex or non-standard cases and others come to me
5 Can train others	I design the approach, set standards, and train and review others

Use this same anchored scale everywhere. Un-anchored 1–10 scales produce noise — everyone marks 7.

4.4 Evidence question (highest-signal item in the form). Describe one piece of work in your primary function that you delivered end to end. What was the task, what exactly did *you* do, and what was the result?

[long text – max 200 words – required]

4.5 Skills matrix (conditional — show only the rows for the functions selected in 4.1)

Each row rated on the 1–5 anchored scale above.

Finance & Accounting — bookkeeping & journal entries · bank & cash reconciliation · accounts payable / supplier ledger · petty cash and float management · payroll processing · donor budget-versus-actual tracking · monthly management accounts · ZIMRA returns (PAYE, VAT, QPDs) · NSSA / ZIMDEF / NEC returns · audit file preparation · multi-currency (USD/ZWG) accounting · fixed asset register

Human Resources & Payroll — recruitment administration · contract administration · payroll runs · leave administration · HR records and personnel files · statutory compliance (NSSA, NEC, Ministry of Labour) · performance management administration · onboarding and offboarding · HR policy drafting · disciplinary and grievance administration

Grants & Donor Compliance — donor rules and regulations · sub-grantee due diligence · sub-grantee monitoring and verification · donor financial reporting · procurement compliance under donor rules · partner capacity assessment · budget development for proposals · cost allocation and shared-cost methodology

MEAL — logframe and indicator design · data collection tool design · KoBoToolbox / ODK / SurveyCTO / CommCare · enumerator training and field supervision · quantitative data cleaning and analysis · qualitative analysis (FGD/KII, coding) · dashboards and visualisation · report writing · accountability and feedback mechanisms · evaluation design and management · MEAL plans and DIPs

Procurement & Logistics — RFQ/RFP/ITB processes · supplier vetting and database management · bid analysis and evaluation reports · contract administration · asset register and tagging · fleet and fuel management · stores and warehouse management · PRAZ processes and public procurement

Internal Audit & Risk — internal control testing · risk register development · compliance reviews · fraud investigation support · policy and SOP review

ICT / Systems Administration — Microsoft 365 administration · Exchange Online and mail routing/DNS · Entra ID / Azure AD · Intune / MDM · Google Workspace · networking (LAN, WiFi, firewalls, routers) · end-user support and helpdesk · backup and disaster recovery · cybersecurity fundamentals, MFA, Conditional Access · VoIP and telephony · hardware diagnostics and repair · server administration (Windows/Linux)

Data, Reporting & BI — advanced Excel (Power Query, PivotTables, Power Pivot) · Power BI · SQL · Google Sheets and Apps Script · data cleaning and transformation · statistical analysis (SPSS, Stata, R, Python) · data visualisation and dashboard design

Software Development — HTML/CSS/JavaScript · React / Vue · Python · PHP / Laravel · Node.js · relational databases (PostgreSQL, MySQL) · **Odoo development (Python, XML, QWeb, OWL)** · API design and integration · Git and version control · WordPress · mobile development · testing and QA

Communications & Digital — content and copywriting · social media management · graphic design (Canva, Adobe) · photography · videography and editing · website content management · email marketing and newsletters · donor visibility and branding compliance · storytelling and case studies

Administration & Executive Support — diary and travel management · minute taking · document formatting and templates · workshop and event logistics · records and filing systems · front-office and reception · board and governance support

Programme / Project Support — workplan development · activity budgeting · field activity coordination · community mobilisation · stakeholder liaison · training facilitation · report compilation

4.6 Software and platforms — rate each you have used [1–5 anchored scale, "Never used" option] · Odoo · QuickBooks · Sage / Pastel · Palladium · Xero · Navision / Serenic · Unit4 / Agresso · SAP · Belina Payroll · PaySoft · Microsoft 365 · Google Workspace · KoBoToolbox · Power BI · Tableau · SPSS · Stata · R · Python · Salesforce · Zoho · Asana / Trello / ClickUp · SharePoint

4.7 Professional qualifications and memberships [repeatable block] · **Body** [dropdown: ACCA / CIMA / ICAZ (CA) / ICSAZ / IPMZ / CIPS / IIA / PMI (PMP) / PRINCE2 / Microsoft / CompTIA / Cisco / AWS / Google / Other] · **Qualification or level** · **Status** [Student / Part-qualified / Finalist / Qualified / Member / Fellow] · **Membership or certificate number** · **Date obtained** [date] · **Expiry** [date, if applicable] · **Upload** [file]

4.8 Languages [repeatable] — **Language** [English / Shona / Ndebele / Tonga / Nambya / Kalanga / Chewa / Venda / Shangani / Other] · **Spoken** [Basic / Conversational / Professional / Native] · **Written** [Basic / Conversational / Professional / Native]

Section 5. Experience

(Apprentices: light version — 5.1, 5.2, 5.6, 5.9. Associates: full section.)

5.1 Total years of professional experience in your primary function [dropdown: None / <1 / 1–2 / 3–5 / 6–10 / 11–15 / 15+] ·

5.2 Years working with NGOs, CSOs, CBOs or donor-funded programmes [same bands]

5.3 Work history [repeatable block – Associates: minimum 2 entries] · **Organisation** · **Sector** [NGO / CSO / UN / Government / Private / Consultancy / Academic / Self-employed] · **Position** · **Start** [month/year] · **End** [month/year or "current"] · **Basis** [Full-time / Part-time / Consultancy / Volunteer / Attachment] · **Two or three key deliverables** [long text, 100 words] · **Reason for leaving**

5.4 Donors you have worked under [multi-select] — EU · USAID/BHA · FCDO · GIZ/KfW · Danida · Sida · Norad · SDC · Irish Aid · Global Fund · UNICEF · UNDP · UNFPA · UNHCR · WFP · FAO · World Bank · AfDB · Gates Foundation · Ford Foundation · Open Society · Oxfam · Save the Children · Plan International · ActionAid · CARE · Other · None yet

5.5 Scale handled — answer the ones relevant to your function:
Largest annual budget you have had responsibility for [dropdown: <\$50k / \$50k–\$250k / \$250k–\$1m / \$1m–\$5m / \$5m+] ·
Largest number of staff you have supervised [number] ·
Largest number of users/endpoints you have supported [number] ·
Largest dataset or sample size you have managed [number]

5.6 Have you supervised, mentored or reviewed the work of juniors, interns or students? [Y/N] + how many, and in what setting [short text]

5.7 (Associates) Have you led any of the following as the responsible person? [multi-select] — statutory audit · donor/project audit · external evaluation · systems implementation · policy development · organisational capacity assessment · none of these

5.8 (Associates) Have you ever had work formally rejected by a client or donor, or had to redo a deliverable? What happened and what changed afterwards? [long text, 150 words] *This one separates candid senior people*

from polished ones. Score for self-awareness, not for a clean record.

5.9 Links — LinkedIn · GitHub / GitLab · Portfolio or website · Published reports or profiles

5.10 Upload CV and up to three work samples, redacted of client-confidential information

Section 6. Availability and engagement terms

6A. Apprentice branch

6.1 Earliest available start date **6.2** How many days per week are you available? **6.3**

Days or times you are **not** available (lectures, exams, other commitments) ☐ Mon-Sat × AM/PM +

notes **6.4** Which engagement model suits you? Shared – up to 5 client organisations at 20% effort

each / Dedicated – one client at 100% / Either **6.5** Work location preference On client site / Tsigiro-

coordinated remote / Hybrid / No preference **6.6** Are you able to travel to client sites within Harare? .

Outside Harare for multi-day field assignments? **6.7** Minimum monthly stipend you would need to

cover transport and meals **6.8** Do you currently hold any employment contract or

bursary condition that would restrict this? + detail **6.9** How long do you want to stay on the

roster? Duration of attachment only / 6 months / 12 months / Open-ended

6B. Associate branch

6.10 Current status Employed full-time / Employed part-time / Self-employed or consulting / Between assignments

/ Retired **6.11** Capacity you can commit dropdown: up to 2 days/month / 3-5 days/month / 6-10 days/month / 10+

days/month / Varies – ask me **6.12** Typical notice you need before starting an assignment Same week / 1 week /

2 weeks / 1 month / More **6.13** Indicative day rate expectation, USD bands: <\$50 / \$50-\$100 / \$100-\$200 / \$200-

\$350 / \$350-\$500 / \$500+ / Negotiable per assignment **6.14** How would you invoice Tsigiro? Registered company

(Pvt Ltd) / Sole trader / Individual – no registered entity **6.15** Do you hold a valid ZIMRA tax clearance

certificate (ITF263)? Yes / No / Expired / Not applicable – not in Zimbabwe + BP number + upload

Flag for your accountant: Zimbabwe applies a withholding tax on contract payments where the payee cannot

furnish a valid tax clearance certificate. Confirm the current rate and threshold before you set Associate

rates, and make the consequence visible on the form so Associates price accordingly. **6.16** Are you VAT

registered? + VAT number **6.17** Do you hold professional indemnity insurance? + cover

amount **6.18 Conflict of interest.** Are you currently employed by, contracted to, or a board member of

any organisation that Tsigiro serves or is likely to serve? + list **6.19** Does your current

employment carry any non-compete, exclusivity or moonlighting restriction that would affect this? /

Don't know + detail **6.20 Consent to CV use in bids.** May Tsigiro include your CV and profile in

proposals, tenders and PRAZ submissions, on the understanding that we will notify you each time? Yes /

Yes, but notify and get approval first / No This one matters commercially — you cannot bid credibly without

named expertise, and you should not include someone's CV without a recorded consent. **6.21** Are there

sectors, donors or organisations you would **not** work with? **6.22** Are you willing to be listed

publicly on the Tsigiro website as an Associate?

Section 7. Work setup and readiness

7.1 Do you have a laptop or desktop you can use for assignments? + rough specification **7.2** Internet access at home **7.3** Typical monthly data budget **7.4** Do you have backup power for load-shedding? **7.5** Do you have a quiet space suitable for client video calls? **7.6** Smartphone with WhatsApp **7.7** Driver's licence + valid defensive driving certificate → Odoos: *Driving License document slot* **7.8** Do you have your own vehicle available for work travel? → Odoos:

Section 8. Integrity, safeguarding and references

8.1 Referees Name · Organisation · Position · Relationship to you · Email · Phone

8.2 When may we contact your referees?

8.3 Have you ever been dismissed from a position, or resigned while a disciplinary or misconduct process was underway? + explanation

8.4 Have you ever been the subject of a substantiated finding, or an ongoing investigation, relating to sexual exploitation, abuse, or harassment? + explanation

Standard in the NGO sector and expected by most donors. Because Tsigiro places people inside client organisations, this is not optional — your clients will ask you what you did about it. Look at the **Misconduct Disclosure Scheme** for the reference wording used across the sector.

8.5 Have you been convicted of a criminal offence that is not a spent conviction? + detail

Have a lawyer check the wording and lawful basis for this question before you publish the form. Request the actual ZRP police clearance only at offer stage, not at application.

8.6 If placed, are you willing to sign and comply with the following?

Confidentiality / non-disclosure undertaking

Tsigiro Code of Conduct

Safeguarding and PSEA policy

Anti-fraud, anti-bribery and anti-corruption policy

Conflict of interest declaration

Data protection and client-data handling undertaking

Client no-solicitation undertaking (you will not contract directly with a Tsigiro client you were introduced to, for a defined period)

8.7 Are you willing to undergo the following checks? — ZRP police clearance · reference checks · qualification verification with your institution or ZIMCHE · credit check (*finance roles only*)

Section 9. Motivation and judgement

Scored. Keep the word limits enforced by the form — long answers are not better answers.

9.1 Why Tsigiro, and why a roster model rather than a conventional job?

- 9.2** (All) Tsigiro apprentices in the Shared tier support up to five client organisations at the same time, at 20% effort each. Describe how you would organise a normal week so that all five clients stay confident their work is on track.
- 9.3** (All) Describe a time you found an error or an irregularity in someone else's work. What did you do, and how did it turn out?
- 9.4** (All) It is 16:45 on Friday. A client emails asking for a report by 08:00 Monday. Producing it needs figures only their finance officer can provide, and that officer is on leave until Tuesday. What do you do, in what order?
- 9.5** (Associates) You are reviewing work produced by an apprentice you have never met in person, for a client you do not see weekly. How do you assure quality without becoming the bottleneck?
- 9.6** (Associates) A client asks you to sign off on something you are not comfortable with, and they are commercially important to Tsigiro. Walk us through how you handle it.
- 9.7** (Apprentices) What do you want to be able to do twelve months from now that you cannot do today?
- 9.8** Anything else we should know?

Section 10. Declarations and consent

- 10.1** I confirm that the information in this application is true and complete, and I understand that false information may lead to removal from the roster or termination of any engagement. ☐
- 10.2 Data protection consent.** Show, in plain language: who the data controller is (Trainit Technologies (Pvt) Ltd t/a Tsigiro), what you collect, why, who it is shared with (prospective client organisations, for placement), how long it is kept (recommend 24 months, then re-confirm or delete), and how to request access, correction or deletion, with a contact address. ☐
- Zimbabwe's **Cyber and Data Protection Act [Chapter 12:07]** carries data-controller obligations including registration with POTRAZ. Get this reviewed — I'm not a lawyer, and this is the part of the build most likely to be got wrong quietly.
- 10.3** I consent to being held on the Tsigiro roster and contacted about opportunities. ☐
- 10.4** (Associates) CV usage consent as selected at 6.20. ☐
- 10.5** Electronic signature — type your full legal name + date + ☐

STAGE 3 — ONBOARDING FORM (roster members only)

Collect these only once someone is admitted or about to be engaged. This is what completes the Odoo employee record shown in your screenshots.

Field	Odoo field	Notes
Street address line 1 and 2	<code>private_street</code> , <code>private_street2</code>	
City, ZIP, state, country	<code>private_city</code> , <code>private_zip</code> , <code>private_state_id</code> , <code>private_country_id</code>	
Home-work distance (km)	<code>km_home_work</code>	Only meaningful for on-site placements
National ID number	<code>identification_id</code>	Format <code>00-0000000X00</code> — validate
Passport number and expiry	<code>passport_id</code>	
Place of birth, country of birth	<code>place_of_birth</code> , <code>country_of_birth</code>	
Marital status	<code>marital</code>	Payroll/benefits justification only
Spouse legal name, spouse birthdate	<code>spouse_complete_name</code> , <code>spouse_birthdate</code>	Only if a benefit actually depends on it — otherwise drop these two
Number of dependent children	<code>children</code>	
Emergency contact name and phone	<code>emergency_contact</code> , <code>emergency_phone</code>	Consider pulling this forward to Stage 1 if apprentices travel to field sites early
Bank account	<code>bank_account_id</code> (<code>res.partner.bank</code>)	Bank, branch, account name, account number, currency
Visa number, work permit number, expiry	<code>visa_no</code> , <code>permit_no</code> , <code>visa_expire</code>	Non-nationals only
Payslip language, timezone	<code>lang</code> , <code>tz</code>	
ZIMRA BP number, NSSA number	custom fields	Add as <code>x_</code> studio fields
ID card copy	<code>id_card</code> attachment	
Driver's licence copy	<code>driving_license</code> attachment	

Field	Odoo field	Notes
Police clearance	custom attachment	With date issued, for expiry tracking
ITF263 tax clearance	custom attachment	Associates — track expiry, it lapses annually
Signed contract, NDA, code of conduct	custom attachments	

Scoring and shortlisting

Suggested structure. Adjust weights, but keep the eligibility gate separate from the score — gates are pass/fail and should never be traded off against a strong answer elsewhere.

Eligibility gate (pass/fail): right to work · minimum qualification for the function · no unresolved safeguarding disclosure · no unmanageable conflict of interest · availability meets the minimum.

Score (100 points):

Component	Apprentice Associate	
Technical fit — skills matrix vs. function requirement	30	35
Evidence and experience (4.4, 5.x, work samples)	20	30
Judgement answers (Section 9)	25	20
Availability, capacity and logistics	15	10
Motivation and roster fit	10	5

Auto-flags for the reviewer: self-rating of 4–5 with a weak or generic 4.4 answer · fewer than 12 months to expected graduation but seeking a 12-month attachment · Associate day-rate expectation above your tier economics · declared conflict of interest with an existing client · no ITF263 for an Associate expecting more than the withholding threshold in a year · referee email on a free domain matching the applicant's own surname.

Interview stage: run technical verification against the two or three highest self-ratings (ask them to actually do something small), plus a structured behavioural interview on the same competencies you scored in Section 9. For Associates, add a review exercise — give them a deliberately flawed short deliverable and ask what they would send back.

Build notes for the web app

Save and resume. This form is long. Magic-link resume by email, with progress saved per section. Without it your completion rate collapses.

Conditional rendering. Branch on 1.1 first; render Section 4.5 rows only for functions selected in 4.1.

Everything else is noise to the applicant.

Deduplicate on email plus date of birth. Roster applicants reapply.

Uploads: max 5MB per file, PDF/JPG/PNG/DOCX only, virus scan, store outside the web root, signed short-lived URLs for reviewer access.

Odoo integration: post to `hr.applicant` via the external API (XML-RPC or JSON-RPC) with the questionnaire payload in a linked custom model. Do not create `hr.employee` records from the public form under any circumstances — that endpoint should not exist.

Consent audit trail: store consent version, timestamp, and IP against each submission. If your privacy notice changes, you need to know who agreed to which version.

Retention job: scheduled action that flags submissions at 22 months for re-confirmation and deletes at 24 months unless the person is an active roster member.

Accessibility and bandwidth: many applicants will complete this on a phone on mobile data. Keep the page weight low, avoid heavy JS frameworks for the form itself, and make every question work on a 360px screen.

Two public entry points — `/apply/apprentice` and `/apply/associate` — so you can put the right link in front of university career offices versus LinkedIn, and track conversion separately.

What I would still pin down before building

Function requirement profiles. For each of the twelve service functions, write the minimum skill levels for Apprentice and for Associate. Without these the skills matrix produces data you cannot act on, and every shortlisting decision becomes a judgement call.

Rate card bands for Associates, so 6.13 offers realistic options rather than inviting anchoring.

Roster lifecycle rules. How long does someone stay on the roster without a deployment before going dormant? What triggers removal? Build the states now, not after the first awkward case.

Whether emergency contact belongs at Stage 1. If apprentices could be deployed to field sites within days of admission, pull 11.x emergency contact forward into Section 2 and drop it from onboarding.
